

Abigail Harris: Mobile App Designer, Front-end Developer

abigail.elisabeth.harris@gmail.com | linkedin.com/in/harris-abigail | abbyharrisportfolio.com

Skills

- Planning and conducting user interviews and usability tests
- Rapid prototyping in Figma
- Auto-layout and component creation in Figma
- Analyzing research data in Dovetail
- Following WCAG standards and inclusive design
- UX Pilot for generating quick mockups
- Agile sprint planning in Jira
- Supabase buckets, tables, and Auth
- Bolt.New for UI development
- TypeScript, JavaScript, HTML and CSS
- React and Astro frameworks
- API calls, Loops, JSON
- GIT, GitHub, Postman
- Creating Digital Fliers in Canva and Spark Post

Experience

Mobile App Designer and Developer, Pair Skating App, May 2025-Present

- Created mobile wireframes using generative AI tool **UX Pilot** and prototyped in Figma
- Used prototype to gauge interest and gather feedback with users on [TikTok](#)
- Coded frontend UI using generative AI tool **Bolt.New** integrating **Supabase** for the Backend
- Transferred code to VS code for more control to finish coding backend using **TypeScript** and **React**

UX Designer, NextMeadow Startup, Mar 2025-June 2025

- Conducted SWOT analyses with our competitors to identify how to differentiate our product
- Created color styles in Figma to unify collaboration efforts with geographically disperse team
- Used auto-layout to wireframe and [prototype](#) key desktop screens for the pitch

Mobile App Designer and Project Manager, Synergy, Apr 2024 - May 2025

- Followed a flexible Agile process using **Jira** to plan sprints for developers
- Wireframed and created [prototypes](#) in **Figma** for usability testing and to communicate flow with geographically dispersed developers
- Developed a **research plan** outlining competitor analysis, target users, SMART objectives, and feature requirements
- Conducted qualitative research including **user interviews** and **moderated remote usability tests** which I then analyzed in **Dovetail** to guide design iterations

UI Designer and Front-end Developer, Figma Plugin, Jan 2025 -Mar 2025

- Designed and coded a **Figma plugin**, [Font Theme](#), that has 34 users and 4 likes
- Improves design efficiency by matching fonts to a design theme and creating Figma text styles for them
- Coded using **JavaScript, HTML, and CSS**
- Collaborated with a back-end developer to fully implement the plugin

UX Designer, Freelance, Jul 2024 - Aug 2024

- Held **weekly meetings with the stakeholder client** to provide progress updates, present recommendations, and clarify project requirements
- Conducted **user interviews with salon customers** and performed **competitive analysis** by benchmarking against 5-star-rated salons
- **Wireframed and prototyped** responsive design in **Figma**, collaborating closely with the developer through **Figma Dev**, delivering [the project](#) within a **5-week timeline**

Education

University of Texas at Arlington

BS in Art and Business

3.93 GPA
